

CENTRO MAYA SERVICIO INTEGRAL

"More than Rehabilitation, We are Inclusion"

VISION & MISSION

Mission

Centro Maya Servicio Integral, a non-profit association that provides comprehensive rehabilitation through CBR Community-Based Rehabilitation; promoting Inclusive Development Based on the DIBC Community, to achieve the inclusion without discrimination of people with disabilities.

Vision

Become a leading disability institution that, through the fulfillment of its objectives, transforms communities and authorities into spaces for integral development, inclusion, equal rights and opportunities.

Areas of work

- **HEALTH**

- **INCLUSIVE EDUCATION**

- **COMMUNITY BASED REHABILITATION
CBR**

HEALTH

- Providing follow up with specialists to follow up on their medication, most of our participants also have a chronic disease.
- We are carrying out the necessary political advocacy to hold the Ministry of Health accountable to attend to these cases. In a joint efforts with the Ministry of Public Health and Social Assistance MSPAS and Centro Maya Servicio Integral; a pilot project was started at Santa María Visitación the Municipality; with the purpose of identifying children and people with disabilities in general, to later replicate throughout the department of Sololá and later at the national level.

INCLUSIVE EDUCATION

Based on the national base curriculum, at all levels and modalities of the system, the necessary curricular adjustments and organizational

changes must be made to guarantee the enrollment, progress, promotion and graduation of students with special educational needs.

COMMUNITY BASED REHABILITATION CBR

Benefits to people with disabilities and their families:

- Addresses impairment, improves functioning and independence, and promotes participation of all people on an equal basis.
- Empowers people with disabilities to make informed decisions, attain their goals and understand their individual rights.
- Enhances the quality of life of people with disabilities and their caregivers by addressing gaps in basic needs.

Benefits to the Community Builds

- Awareness of the diversity within the community, including diversity in functioning of people with disabilities, older persons and children.

- Fosters more positive attitudes towards people with disabilities, and develops a greater understanding of disability, rights and the importance of equity so that no one is left behind when community development activities occur.
- Focuses on local service systems, local resources and local practical solutions to real barriers that exist for people with disabilities and their caregivers with respect to access to services and participation in society.
- Promotes inclusion of all people, particularly those with disabilities, in local decision-making, governance and resource allocation.

OUR PROGRAMS

HEALTH

- **Neurological and specialist health care.**
